Dear Mr. Halverson:

Thank you for your letter of May 12, 1983, concerning the Federal Capital Improvements Program funding proposal for the Central Intelligence Agency headquarters consolidation. We have advised the full Commission and CIA of your interest and concern regarding the adequacy of off-site road improvements and the provision of adequate opportunity for a review of plans for the road improvements.

The CIA staff has reiterated to our staff in recent discussions that it remains fully committed to coordinating with affected organizations in the surrounding community on plans for the off-site road improvements, as well as the site and landscape plans for the consolidation project. The Potomac School and other interested organizations and individuals will also have the opportunity to comment and make recommendations to the Commission during its reviews of plans for the project.

We appreciate your comments on this matter. If you have concerns regarding the coordination of the project plans during the coming months, please contact Robert Gresham of our staff, on 724-0191.

Sincerely,

Reginald W. Griffith
Executive Director
